Charts

CQG provides a number of charting options, all offering maximum flexibility that allows you to set up charts just the way you like.

In default each chart has a tool bar on the top

Select the personal set up for each chart: Time frame, chart type, cross hair, OHLC etc.

Use more setting options via the gear icon or apply a study

All changes are immediately displayed in the chart

In default each chart has a second tool with pointer tools

Tap on the instrument and use it in the chart. Tap on the chart to place the first point and tap a second time to place the second point

Trading – e.g. HOT (Hybrit Order Ticket)

The app offers a selection of order entry and order management applications that suite a variety of trading styles.

One of the most popular way to place orders and open positions is via the HOT

Define lot size and type of order (Day/GTC)

Tap to select a price in the price scale

Tap on the Buy/Sell buttons on the right
